Marketing Operations & Analytics Leader

Marketing operations leader who diagnoses broken revenue processes other teams miss. At Schneider Electric, traced \$20M in lost pipeline to a single handoff failure: sales weren't calling 97% of high-intent leads. I find the 3% inefficiencies that cost millions, then fix them. 7+ years building analytics infrastructure and turning funnel breakdowns into executive action.

KEY ACHIEVEMENTS

- **Uncovered \$20M in lost pipeline** (5% of Marketing pipeline) by discovering 97% of high-intent "contact sales" leads had zero follow-up attempts, driving cross-functional process redesign that improved conversion from 3% to 12% within 6 months
 - **Founded "Demand Jam" internal education series (100+ weekly attendees)** driving 40% increase in MarTech adoption and transforming NAM marketing from tool users to data-driven strategists
-

EXPERIENCE

Performance Marketing Manager (Marketing Operations & Analytics)

Schneider Electric | Boston, USA | Feb 2024 - Present

Lead marketing analytics and revenue operations for North America across 16 segments. Own data infrastructure spanning Demandbase, Salesforce, SFMC, GA4, Contentsquare.

- Built analytics framework connecting SFMC, Salesforce, GA4, Demandbase for end-to-end tracking across 16 segments, eliminating **20+ hours monthly manual reporting**
- Designed **NAM's first marketing funnel framework** enabling segment marketers to track campaign contribution from new names through pipeline, filling critical performance visibility gap that informed \$12M budget reallocation
- **Launched experimentation program** via SFMC, Optimizely, Contentsquare. Healthcare re-engagement test proved disengaged audiences respond at 2.5x rate, improving performance 12% and generating 150 MQLs
- **Redesigned lead scoring and routing** after discovering paid media leads were incorrectly fast-tracked to sales. Implemented nurture program for early-stage paid leads, improving conversion 50%
- **Analyzed Monthly Active User patterns** revealing website/events drove highest engagement while paid media showed YoY decline. Insight informed channel strategy optimization and resource reallocation
- **Delivered internal training on lead management and lifecycle definitions** to 150+ NAM marketers, establishing shared understanding and improving cross-functional campaign execution
- **Manage 3-person team and coach 16 segment marketers** on Demandbase/Contentsquare optimization, improving MQL-to-SQL conversion 15%

Strategic Marketing Manager | Schneider Electric | Boston, USA | Sep 2021 – Feb 2024

Led GTM strategy and demand generation for enterprise automation solutions targeting industrial manufacturing accounts.

- **Developed ABM program** targeting 20+ accounts with defined ICPs and personalized messaging, generating \$5M qualified pipeline (5% of enterprise total)
- **Led GTM for 3 product launches** including positioning, sales enablement, and integrated campaigns, driving 35% engagement increase and 22% MQL-to-SQL improvement
- **Built executive dashboards** tracking GTM performance and pipeline velocity, enabling quarterly VP reviews that informed investment decisions
- **Created sales enablement** (battlecards, white papers, ROI calculators) reducing enterprise deal cycle 15% (8.5 to 7.2 months)
- **Partnered with Product/Field Marketing** to translate technical capabilities into customer-outcome-focused messaging across demand gen and sales

Program Manager | CATKing Educare | Mumbai, India | Jul 2017 - Nov 2019

- Built demand gen programs generating \$120K revenue, increasing lead volume 25% YoY through segmentation and campaign optimization
-
