Marketing Operations & Analytics Leader

I find the revenue leaks other teams miss. At Schneider Electric, I traced \$20M in lost pipeline to a single handoff failure; sales weren't following up on 97% of high-intent leads. 7+ years in B2B marketing operations: building funnel frameworks from scratch, redesigning lead scoring and routing in Salesforce, running experimentation programs, and coaching marketers to use data (and AI) to make better decisions. I fix the 3% inefficiencies that cost millions.

KEY ACHIEVEMENTS

- **Identified \$20M in pipeline leakage** by discovering 97% of high intent "contact sales" leads had zero sales follow-up. Led cross-functional redesign of routing, SLAs, and lifecycle stages; conversion improved from 3% to 12% in 6 months
 - **Built NAM's first marketing funnel framework** from scratch; defined lifecycle stages, scoring criteria, and conversion points across 16 segments where none existed. Framework became the basis for monthly business reviews and informed \$12M budget reallocation
-

EXPERIENCE

Performance Marketing Manager (Marketing Ops & Analytics) | Schneider Electric, Boston | Feb 2024 - Present

Own lead operations, MarTech enablement, and revenue reporting for North America across 16 segments. Manage Salesforce, SFMC, Demandbase, GA4, Contentsquare, and a 3-person team.

- **Enabled cross-platform MarTech adoption** by building use cases showing how contacts flow through the funnel across SFMC, Salesforce, Demandbase, and GA4, helped segment marketers leverage behavioral data for journey-based campaigns and persona targeting, cutting 20+ hours of monthly manual reporting
 - **Redesigned lead scoring model and routing logic** in Salesforce after discovering paid media leads were being fast-tracked past nurture. Built automated SFMC sequences for early-stage leads, improving conversion 50%
 - **Launched experimentation program** (SFMC, Optimizely, Contentsquare); healthcare re-engagement test proved disengaged audiences convert at 2.5x rate, generating 150 MQLs and reshaping segment strategy
 - **Built executive dashboards in Tableau** with Salesforce deep-linking, enabling sales to filter and act on leads directly from reporting. Lead quarterly business reviews for 80+ stakeholders across US, Canada, and Mexico
 - **Manage 3-person team; coach 16 segment marketers** on Demandbase, Contentsquare, and campaign optimization—improved MQL-to-SQL conversion 15%
-

Strategic Marketing Manager | Schneider Electric, Boston | Sep 2021 – Jan 2024

Led GTM strategy and demand generation for enterprise automation solutions (Cobot, Machine Twin) targeting industrial manufacturing.

- **Built ABM program targeting 20+ enterprise accounts** with persona-specific messaging (Plant Managers, Engineers, C-suite) and multi-stage offer journeys, generated \$5M qualified pipeline, 5% of enterprise total
 - **Led GTM for 3 product launches end-to-end:** positioning, sales enablement, integrated campaigns. Drove 35% engagement increase and 22% MQL-to-SQL improvement
 - **Created battlecards, ROI calculators, and white papers** that shortened deal cycles from 8.5 to 7.2 months - sales adopted assets as standard pre-call prep
-

Program Manager | CATKing Educare, Mumbai, India | Jul 2017 – Nov 2019

Built demand generation engine from scratch; \$120K revenue, 25% YoY lead volume growth through segmentation and campaign optimization.

LEADERSHIP

- **Founded "Demand Jam"** - weekly education series (100+ attendees) driving 40% MarTech adoption increase. Trained 150+ marketers on lifecycle management, SFMC execution, and AI tools.
 - **Innovation Summit** - Led end-to-end external registration and reporting strategy for Schneider Electric's flagship event (1500+ enterprise customers), defining analytics requirements and coordinating across event, MarTech and field marketing teams to drive \$2.5M in influenced pipeline.
-

EDUCATION & CERTIFICATIONS

MBA, Marketing, Bentley University, (2020–2021)

B.E., Information Technology, University of Mumbai, (2012–2016)

PMP® | CSM®
